## FOR IMMEDIATE RELEASE:

**Montgomery, IL- August 4, 2016** The Montgomery Economic Development Corporation (MEDC), recently had their entire website redesigned by Weblinx. The original site was created by Weblinx back when the corporation was first formed in 2003. The new site is mobile and user friendly. It's quicker and easier to navigate, and the redesign adds a fresh look. I couldn't be any happier and sincerely appreciate the continued support and work that Weblinx has provided over the last decade.

The site highlights Executive Partners on the Home page, Board Members and all MEDC Members and services throughout the site. It also includes links to a series of Village and community activities, maps, resources and links. It provides a community calendar and has great resources for available land and development opportunities.

The new site allows the MEDC to not only market the community, it also gives the MEDC the opportunity to showcase MEDC Members. This creates added value and exposure to our professional community and all MEDC members and Montgomery businesses.

Weblinx is a local web design and digital marketing firm. The company was founded and supported by a specialized team of visionary designers with extraordinary passion and creativity. I could not have asked for a better team of professionals.

If we happen to have missed anything or you would like additional data, please do not hesitate to call the office, send an email or write a review.
